

Capability Statement

www.dt-trak.com

DT-Trak Consulting, Inc. (DT-Trak) is an **Indian-owned and operated** Small Business Association (SBA)-certified small business, providing nationwide Revenue Cycle Management (RCM) services since 2002 including medical coding, claims approval, aged claim and denials management and provider education. Our staff is comprised of experienced, credentialed professionals with extensive experience in Tribal and IHS specific coding and reimbursement guidelines, specifically in the **Navajo, Albuquerque and Billings Area for 12+ years** using RPMS and numerous other EHR's. Our **Mission** is to provide the highest quality revenue cycle management services at the most **competitive price**, through supportive partnerships with each client we serve.

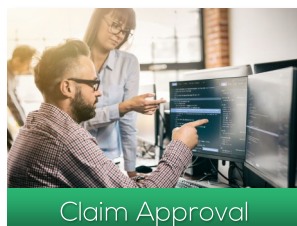

CAGE: 3HXXH3 | DUNS: 119607559 | Phone: (877) 858-5307

The DT-Trak Difference

DT-Trak has developed a suite of proprietary technologies that enable us to manage tasks faster, with more accuracy with data mining capabilities.

DT-Traker Dashboard: patent-pending, used for coding, billing and/or accounts receivable assigned tasks and is compatible with any EHR. This metrics and analytics claims management tool streamlines the workflow and tracking processes, as well as providing up-to-the-minute reports with full color charts. This real-time access can be tailored to match the protocols and needs of each facility.

AutoMate AR: our Claims Status and Denials Management Tool (automated) that includes automated processes to streamline collections activity.

DT-Capture: An insurance eligibility verification and discovery tool is included to capture more billable claims with less denials. The results are less staff needed to increase capacity, with better, more accurate and faster returns on your AR.
